ACTIVITY REPORT

Name of the Activity	ICT Computing Skills	
Type of Activity	Introduction To Micromedex And Hands On Practice	
Date and Time of Activity	29.03.2023	10.00 am to 02.00 pm
Details of Participants	130	
Resource Person	Dr. Somsekhar Shyle,Professor	
Description	VP College of Pharmacy conducted a ICT Skill development program on **"INTRODUCTION TO MICROMEDEX AND HANDS ON PRACTICE"** on 29.03.2023 at Seminar hall. In this occasion students and teaching staff actively participated in this program. In this our principal Dr. Shingade S. G. garu delivered a few words regarding the importance of ICT on Introduction to MICROMEDEX and Hands on PracticeSkills - The primary objective of software engineering is to create dependable and effective software. The objective of software engineering is to produce high-quality software. Here are 12 technical skills needed to become a software developer: • Coding languages. • Database knowledge. • Data structures and algorithms. • Source control. • Testing procedures. • Debugging knowledge. • Operating systems. • Text editing software. Micromedex is an indexing database that provides access to full-text tertiary literature. This tertiary literature is unbiased, referenced information about drugs, toxicology, diseases, acute care, and alternative medicine. Micromedex offers searching by drug, disease, or toxicology. In addition, the Ask Watson search uses artificial intelligence to produce answers to simple drug reference questions. Other features of Micromedex include: Drug Interactions—Checks drug interactions, effects, and clinical significance.

Description	VP College of Pharmacy conducted a ICT Skill development program on **"INTRODUCTION TO ARGUS SOFTWARE"** on 14.02.2022 at Seminar hall. In this occasion students and teaching staff actively participated in this program. In this our principal Dr. Shingade S. G. garu delivered a few words regarding the importance of ICT on Introduction to Argus Software and Hands on Practice Skills - The primary objective of Argus software is to create dependable and effective software. The objective of software engineering is to produce high-quality software. The session was continued on the title "Argus Software". He enumerated about Argus Software. He also emphasized that the importance of Argus Software in Pharmacovigilance. He further went on to give a vivid outlook on its usage in everyday life. The main aim of the workshop was to provide the Argus Software and also to give hands on training for application of it. In this session students were being explained with the main principles and then followed by the lunch. At the end of the session. The training program ended with our respected Principal. He was thankful for the valuable inputs delivered by resource person and he appreciated the commendable efforts taken by the college for initiating such a knowledgeable and informative session. The vote of thanks was given by the Principal on the successful completion of the workshop.

Description	VP College Of Pharmacy conducted a ICT Skill development program on "USES AND APPLICATION OF ANIMAL STIMULATOR" on 24.12.2020 at 11 AM in Seminar hall. In this occasion students and teaching staff actively participated in this program. In this our principal Dr. Shingade S. G. garu delivered a few words regarding the importance of ICT ON USES AND APPLICATION OF ANIMAL STIMULATOR– "it is clear that the objective of ICT is to establish smart schools and to increase the capacity of teachers. Advantages of using ICT in education: It is of great use in achieving various objectives of the teaching-learning process. ICT can assist a traditional Indian farmer in collecting pertinent knowledge about livestock processing and management technology, animal husbandry systems, animal health care and treatment, animal insurance, consumer support, and livestock finance and management. Animal technology is a specialist profession responsible for the care and welfare of laboratory animals. It is an essential and integral part of our science sector. Animal Technology helps scientific research be carried out, new treatments for diseases to be developed, and new methods of diagnosis be identified." .
