### 3.4.2: Awards and recognitions received for extension activities from government / government recognised bodies.

Awards and accolades have been bestowed to V P College of Pharmacy by the government and organizations that are recognized by the government in appreciation of its contribution to extension activities. These activities include acting as a judge for the University NSS Youth Festival, participating in the University NSS Youth Festival, organizing lake cleaning and blood donation youth events, and running an awareness campaign on cancer prevention. World Cancer Day is an annual event that is held with the purpose of promoting cancer prevention, detection, and treatment initiatives, as well as raising awareness about the disease. Community outreach initiatives are carried out by the NSS unit, with the goal of providing benefits to individuals as well as to society as a whole. For the purpose of fostering both physical and emotional well-being, the organization organizes activities such as blood donation drives and educational lectures. A lot of enthusiasm has been shown by the children in their participation in the provision of environmental protection services. On account of their unflinching commitment to addressing the problem of pollution, they were recognized for their efforts. They enabled the implementation of educational developmental projects in public schools. Following the presentation of medals and commendations, the students were recognized for the achievements they had achieved.

In addition to fostering student participation in activities that involve interaction, the College maintains a network that links it to the neighborhood that surrounds it.

In order to contribute to the National Swachh Bharat Abhiyan and to maintain cleanliness both on and off campus, students participate in continuing volunteer initiatives. These efforts include raising awareness

about the influence that a clean environment has on human health and maintaining cleanliness. Camps for the donation of blood have been organized and prepared for attendees. Instilling the principles of social responsibility is the goal of the activities that are being carried out. These principles include increasing awareness of the challenges and problems that society faces and actively engaging in the process of finding solutions.

Skills such as social skills, communication skills, leadership skills, analytical skills, and perceptual skills are among the abilities that are discovered and acquired.

There have been a number of activities that have been undertaken by the NSS Cell of our school with the purpose of bringing to the attention of students the many social issues and challenges that they face. Through the use of the motto "Not me but you," the objective is to cultivate feelings of empathy and compassion, and eventually to bring about fundamental changes in the way they live their lives and the way they see society.

Our college is tirelessly working with zeal to achieve maximum societal effect. Each year, we want to broaden the scope of our efforts in order to provide further assistance to society.
