| Description                        | <p>The Department of Training and Placement is organizing a Career Opportunities for Study Abroad Aspirants on 24.12.2019 by Mrs. Shabana Bhanu. The session started at 11:00 AM in the seminar hall. The students were given Complete guidance about career counselling. They also conducted revision and assessment tests to check the students gained knowledge.</p> <p>The global outlook you have as an international student is often appealing to employers, and along with your degree you'll have a lot to offer. While you studied abroad you may have even worked part-time depending on your visa restrictions and gained some experience in the area you want to pursue.</p> <p>As your graduation gets nearer you'll need to consider what your job opportunities are after studying abroad; whether you want to continue your studies, stay and work, or find a job back in your home country.</p> <p>He emphasized how the idea that everyone has the ability to be creative does not successfully boost competition and makes it more difficult to be recognized as a professional creative industries practitioner. Even though everyone is creative or innovative in some manner, this does not guarantee success. This is due to three major factors. Some individuals have a better capacity for creativity and imagination than others. Some individuals lack the time and resources required to realize their creative potential. Others just believe that they cannot earn a career from their creativity and hence do not embrace or develop their imagination.</p> |                     |
