

### **2.6.1: Programme Outcomes (POs) and Course Outcomes (COs) for all Programmes offered by the institution are stated and displayed on website.**

The outcome of academic learning of the program and course offered by the institute mainly depends on Programme outcomes (POs) and Course outcomes (COs) as to correspond to the goals of each program in addition to its vision, mission and quality policy. Every Programme has clearly defined learning outcomes of its programme called Programme Outcomes (POs). The Program Outcomes are designed to identify different aspects of students learning skills like Knowledge, Cognitive skills, Analytical skills, Modern tools and instruments usage, Professional skills, Social Skills, and the development of an attitude toward lifelong learning. The POs are derived from respective Graduate Attributes (GA).

The competencies that a graduate of a program should have acquired are called Graduate Attributes. Course Outcomes are central to our course curriculum. They articulate to students, faculty, and other stakeholders what the students will achieve in each course and how their learning will be measured. A Course Outcome (CO) is a measurable, observable, and specific statement that clearly indicates what a student should know and be able to do as a result of learning. Course Outcomes framed in our institution mainly involve an action verb, subject content and level of achievement. An action verb is selected based on Bloom's taxonomy. As per the Dr.B.A.T University syllabus, we have drafted 5 COs for B. Pharmacy.

The following Program Outcomes (POs) structured by the National Board of Accreditation (NBA) is applied to program.

- PO1: Pharmacy Knowledge.
- PO2: Planning Abilities.
- PO3: Problem Analysis.
- PO4: Modern tool usage.
- PO5: Leadership skills.

# Shaneshwar Shikshan Prasarak Mandal's V P COLLEGE OF PHARMACY, MADKHOL

Tal. Sawantwadi, Dist. Sindhudurg-416510 (Maharashtra)

ITE Code-3490

D. Pharmacy & B. Pharmacy

MSBTE Code-2010

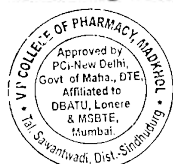

Approved by PCI, New Delhi, Govt. of Maha., DTE, Mumbai & Affiliated to DBATU, Lonere & MSBTE, Mumbai

- PO6: Professional Identity.
- PO7: Pharmaceutical Ethics.
- PO8: Communication.
- PO9: The Pharmacist and society.
- PO10: Environment and sustainability.
- PO11: Life-long learning.

The primary objective of Programme Outcomes and Course Outcomes is to impart knowledge and enhance skills which are vital for building students' capability and personality. The following mechanism is followed by the institution to disseminate outcomes to the teachers and students.

- By displaying at Principal/HOD chamber, all laboratories, Library, Notice board and all Central facilities.
- At the beginning of the semester, the program outcomes and course outcomes are clearly explained in the departmental meetings to the faculty by the respective HOD.
- Newly recruited staff members are briefed on the Programme Outcomes and the Course Outcomes. After the allocation of the respective courses by HOD.
- HOD explains the Programme Outcomes of each program in the Orientation programme for freshers.
- The faculty members will discuss the course outcomes with the students in the first class of the semester to make them aware of Course Outcomes.
- In lesson plans, Course Objectives, Course Outcomes, and a total number of teaching hours are scheduled at the beginning of the academic year.
- The importance of POs and COs is discussed in every IQAC meeting.
- POs & COs are circulated to all stakeholders regularly.

To make the teaching-learning process effective, the assessment of students is done in the backdrop of these and allows the faculty to focus on the attainment of these.
