7.3.1: Portray the performance of the Institution in one area distinctive to its priority and thrust

Introduction:

Education is the key to human resource development and a vehicle for economic growth of a country. But without a skill for employment or vocational work, the appropriate utility of education cannot be done. Due to constraints in curriculum and time, we at our college initiated skill upgradation programmes for students which ensures overall development of students to become a competent, social and professional pharmacist. The programme will massively contribute to personal, social and professional transformation and growth of the student. This will help to improve employability as well as career growth.

The programme aimed

- To identify skills of the students
- To strengthen and upgrade these skills

Objective:

- To support the professional advancement of the students by organising guest lectures, seminars and workshops by the professional experts.
- To build self-confidence and enhance professional knowledge among the students
- To bridge the gap between Theoretical Learning and Practical Application
- To inculcate research culture

Context:

Skill Upgradation Programme of our institute represents multidimensional as well as multifaceted development of the students. This programme focuses on the enhancement of the skills of the students apart from regular academic development. Programme also focuses on

communication skill and command over English language. Under skill upgradation programme, special sessions were organised on Language and Communication Skills enhancement. Marked improvement was observed in the students during their viva and presentations.

Life Skill Management: Youth are being considered the most productive members of society due to their physical and intellectual capabilities. In order to realise their potential appropriately, they need guidance and motivation. Youth these days are facing many challenges such as social, emotional, physical and psychological issues. Cut-throat competition, unemployment, lack of job security, etc. are some of the major concerns for the educated and as a result, they are caught in the mad race. No one has time for his/her 'self', to develop empathy with surrounding and to have harmony in society. To overcome these college has initiated life skill management programmes comprises of session on yoga, meditation and personality development.

Minor Project: To inculcate research culture and enhance their critical thinking, initiative was taken under skill upgradation programme. Students of semester VI were divided into groups of four to five students and asked to undertake minor project. Students were enthusiastic to work on topic however they found difficulty in selection of topic, methodology to be adopted, way of scientific writing etc. To overcome these difficulties, a series of lectures by the faculties of our institute was carried out on topics such as introduction to research, research methodology, literature survey, Scientific writing, citing and referencing etc. Improvement in ability of students to correlate theoretical concepts with practical applications proved the success of practice of minor project.

Training and Placement: The training and placement committee of college provides information on employment trends, projects development, recruitment methods, occupational
